

# Evan Ross

📍 Lansing, Mi | ✉ evanross594@gmail.com | 📞 (517) 920-5762 | 🔗 <https://www.linkedin.com/in/evanross648bb829a/>

*Dedicated to a collaborative, technical environment; Looking for an internship to gain engineering work experience, learn and refine skills, and a team to become immersed in as a valuable member*

## EDUCATION

**Michigan State University, College of Engineering**  
*Bachelor of Science, Computer Science, GPA: 3.5*

📍 East Lansing, Mi.  
December 2022 - December 2026

## EXPERIENCE

**Kellogg Hotel & Conference Center**  
*Audio-Visual Technician*

📍 East Lansing, Michigan  
January 2024 - December 2024

- I acquired valuable information about mixers (the effects of modulating decibels in high, mid, and low frequencies for optimal sound), power efficiency, projection technologies, running cable systems to and from a Crestron sound system, and careful cable management skills on-site and within storage. These skills are also often used in my daily life.
- Discovered ways to receive and relay information to guests and clients about what our hotel could provide and what they need optimally. These skills will help me daily to explain concepts that may be foreign or new to anyone.

*Clerical Associate*

July 2023 - January 2024

- I have further experience in customer satisfaction and hospitality and have acquired an understanding of OPERA Hotel Property Management Solutions.
- Refined communication skills between coworkers and customers by becoming knowledgeable about the Hotel and prepared for unexpected situations to provide a quality guest experience.

**Culvers Restaurant**

📍 Okemos, Mi.

*Kitchen Trainer*

February 2022 - November 2022

- Maximized customer satisfaction by focusing on order accuracy and polite service attaining skills in communication and situational awareness.
- Optimized efficiency in general tasks such as grilling, frying, sending orders, and stock management acquiring stronger organizational skills and work relationships.
- Trained new employees on stations by demonstrating, guiding, and shadowing to ensure order consistency.

## PROJECTS

*Personal Portfolio Website*

December 20, 2024 - Present

- I am refining my skills in HTML, CSS, and JS to advertise myself as a capable candidate within a software Engineering environment. This page is a consistent work in progress and can be found on my GitHub. It will showcase my skills in sticking to a project despite being able to call it quits at any time. I treat every project with the same care: creativity, attention to detail, professionalism, and efficiency.

## INVOLVEMENT

**Running Club Member** 🏃

September 2023 - Present

**SpartaSoft Club Member** 📄

September 2023 - Present

**Sustainability Club Member** ♻️

September 2023 - Present

## TECHNICAL CAPABILITIES

**Proficient:** Unix, C++, C, JavaScript, CSS, HTML, Python, Algorithmic Expressions, CAD, Microsoft Office Suite, Google Suite

**Intermediate:** Large Learning Models, React, SQL, Spring Framework, AngularJS, Docker & Kubernetes, C#, Excel, DaVinci Resolve & more
